July 28, 2014

Dear Parents/Guardians,

The math department is encouraging students enrolled in Algebra 2 courses and higher to purchase their own graphing calculator. As a department, we would recommend the TI-84 plus calculator. While the TI-Inspire is a fantastic calculator, the extra functions it is capable of doing will not be used in most of our courses.

We understand that the cost of these calculators can be great. To help the situation, we will be offering a rental opportunity. A calculator can be rented for a cost of \$10 for the whole school year. This system will be on a first come, first serve basis. Your student will be responsible for the batteries and condition of the calculator. If the calculator is not returned in working order at the end of the school year, your child will be charged the current replacement value of the calculator.

If you have any questions or concerns, please feel free to contact one of the math teachers below.

Sincerely,

Mrs. Barr
